

**Model: LED-DIM-12V**

## LOW VOLTAGE LED DIMMER

### Features

- Dims most bulbs including dimmable LEDs up to 90%
- Perfect for indoor and outdoor applications
- Short-circuit protection with simple recovery
- Transient protection (supply side and load side)
- Extremely smooth trailing edge dimming
- IP67 (dustproof, water resistant, potted electronics)
- Intelligent soft-start
- Black faceplate
- Adjustable knob for voltage regulation

### Technical Specs

- Current capacity: 10A
- 12VAC
- Max load = 120W at 12V
- No minimum load required
- Auto frequency adjust (40Hz – 400Hz)
- 4 1/2" H x 2 3/4" W x 2" Deep
- J Box / Housing not included
